CORE COMPETENCIES

Data & Analytics

Data Analysis & Visualization
Predictive Modelling & Forecasting
Power BI, Excel, MATLAB
Data Cleaning, Warehousing & Mining

Systems & Infrastructure

Systems Administration
Network Troubleshooting
Database Administration
Server & Email Configuration
IT Security & Access Management
Backup, Recovery & DR Planning

Management & Support

IT Team & Project Leadership
IT Policy & Governance
Vendor & Stakeholder Management
Helpdesk / End-User Support
Change Management

Software Development

iOS
Android
Web Apps
Desktop Apps

TECHNICAL TOOLKIT

PHP, Python, Java, C++, C
HTML, CSS, JavaScript, R, SQL
Node.js, React, Laravel
MySQL, PostgreSQL
Microsoft Azure
Sophos XG Firewall
Microsoft 365, Power Automate, Power Apps, SharePoint
Joomla, WordPress
PROMUN ERP, Belina Payroll

SOFT SKILLS

Self-motivated and disciplined
Strong communicator
Innovative and fast learner

PROFILE

Versatile IT and data professional with over eight years of experience spanning data analysis, systems administration, network and database support, and IT team leadership within a large public-sector organisation and, more recently, the mining industry. Holds a Bachelor of Commerce Honours Degree in Data Science and Informatics, a Bachelor of Commerce Honours Degree in Financial Intelligence, and a Diploma in Computer Engineering and Structured Cabling, and is currently pursuing a Master of Commerce in Information Management at Midlands State University. Comfortable operating across the full IT and data stack, from building predictive models and dashboards to administering servers, databases and networks, managing IT policy, and leading technical teams. Certified in cyber security (white-hat ethical hacking), machine learning and data mining, with a consistent record of improving data quality, system reliability and service delivery.

EMPLOYMENT HISTORY

Data Analyst

Jul 2024 - Present

Walden Mining Company, Chegutu

- Manage, maintain and continuously improve data tracking systems, ensuring high data quality through rigorous cleaning, validation and accuracy checks.
- Build predictive models to forecast ore and sand quality, production output and equipment performance.
- Prepare, review and validate daily, weekly and monthly production reports for management and senior stakeholders.
- Apply statistical and machine learning techniques, and design interactive Power BI, Excel and MATLAB dashboards, to enhance operational efficiency and decision-making.
- Identify trends, inefficiencies and process gaps, investigate data discrepancies and anomalies, and support root-cause analysis and corrective action.
- Develop and automate data validation protocols and apply machine learning to optimise stockpile management and inventory forecasting.

Assistant IT Manager

Jan 2017 - Jun 2024

Chegutu Municipality

- Developed and implemented IT policies, work plans and training initiatives, and managed user access rights and security permissions across the network.
- Configured servers, email clients and network infrastructure; diagnosed and resolved hardware, software and connectivity issues as primary point of contact for technical support.
- Repaired and serviced computer hardware including laptops, desktops and printers, and upgraded systems to meet operational requirements.
- Installed, configured and updated operating systems and software applications, and established reliable procedures for data backup, recovery and protection.
- Oversaw website maintenance and the integration of emerging technologies, ensuring optimal performance of all IT systems and network resources.
- Led the Chegutu Municipality Property Survey App project end-to-end, from planning and system design through development, testing and deployment, integrating it with KoboToolbox for real-time, cloud-based data capture.
- Designed and developed an AI-powered municipal website featuring intelligent live chat and a dynamic ratepayer enquiry system.

Acting Public Relations and Communications Manager

Apr 2023 - Jun 2024

Chegutu Municipality

- Spoke on behalf of the council and CEO, managed stakeholder engagement through the website and other council platforms, and oversaw media coverage of

Works well under minimum supervision
Sound financial and business acumen

English

council events.

EDUCATION

Master of Commerce in Information Management *In Progress*
Midlands State University, Harare

- Advanced Databases, Software Engineering, Advanced Data Communication and Networking, Change Management, Advanced Project Management, AI & Expert Systems, E-Commerce Strategies.

BCom Honours: Data Science & Informatics *Aug 2021 - Jun 2024*
Midlands State University

- Software development in Python, Java, MySQL, PostgreSQL, PHP and C++; database administration and design; cloud computing; data pipeline architecture; data analytics, visualisation, mining and warehousing with R, Python, Power BI, Excel and MATLAB.

Diploma: Computer Engineering & Structured Cabling *Jan 2019 - Mar 2021*
MacMaine School of Computing

- Computer repairs, structured cabling, data recovery and system diagnostics, wireless networking, computer security.

BCom Honours: Financial Intelligence *Aug 2013 - Jun 2017*
Bindura University

- Accounting, economics, auditing, risk management, business intelligence, business law, corporate governance, taxation, public finance.

CERTIFICATIONS & SHORT COURSES

- Cyber Security: White-Hat Ethical Hacking
- Practical Machine Learning with Python
- Data Mining with Python
- Front End Web Development and PHP
- PROMUN ERP System

MAJOR PROJECTS

- Chegutu Municipality Property Survey App (2020): developed and configured a scalable data collection application integrated with KoboToolbox for real-time, cloud-based data capture; led the project from planning through deployment.
- AI-Powered Municipal Website (2016): designed and developed chegutumunicipality.co.zw, integrating intelligent live chat support and a dynamic ratepayer enquiry system.
- AccomUS (accomus.co.zw): an online accommodation marketplace connecting tenants directly with landlords and shoppers with business premises, making it easy to find rental accommodation and commercial space. Link: <https://www.accomus.co.zw/>
